SUMMARY

Full-stack developer and MCA graduate from Nizam College, Hyderabad. End-to-end builder: responsive UIs, REST APIs, and the data models behind them. MSc Computer Science (University of East London) - dissertation on ML-based fake review detection.

SKILLS

Frontend:	React, Next.js, TypeScript, JavaScript, Tailwind CSS, shadcn/ui, HTML5, CSS3
Backend:	Go, Node.js, NestJS, Python, REST APIs, JWT Auth, RBAC, Multi-Agent AI
Database & Infra:	PostgreSQL, Prisma, GORM, Supabase, Redis, SQLite
DevOps & Tools:	Docker, Git, GitHub Actions, Vitest, Swift, Judge0, scikit-learn, Monorepos

PROJECTS

Smart Academy

Go, Gin, React, PostgreSQL, Redis, Docker

- Coding education platform with multi-agent AI course/quiz/contest generation.
- Judge0 code execution, JPlag plagiarism detection, 6-role RBAC dashboards.
- Live: <https://smart-academy-eight.vercel.app>

School Management System

NestJS, Next.js 16, Prisma, PostgreSQL, Jest

- NestJS backend with 10 modules: students, attendance, fees, homework, notices, reports.
- JWT + Passport auth, role-based dashboards for Admin/Teacher/Parent.
- Live: <https://school-management-omega-olive.vercel.app>

EcomSim

Next.js 16, TypeScript, Prisma, Zustand, Playwright

- Amazon-style e-commerce simulator with real catalog data.
- Full browse-to-cart-to-checkout-to-order-tracking loop, wishlist, Playwright e2e.
- Live: <https://ecomsim-ecru.vercel.app>

ProofReader

Next.js 16, Prisma, PostgreSQL, Gemini AI, Vitest

- AI-powered proofreading platform with configurable rules engine.
- JWT auth, admin panel, Vitest-covered API surface.
- Live: <https://proofreader-liard.vercel.app>

Trainova - CoachOS

Next.js 16, TypeScript, Prisma, PostgreSQL, PWA

- Mobile-first AI coaching PWA for fitness trainers.
- Dual trainer/athlete portals, custom JWT auth, offline IndexedDB sync.
- Live: <https://trainova-theta.vercel.app>

ScanConnect

Next.js 15, Supabase, Tailwind, shadcn/ui

- QR digital business hub for restaurants - one QR, one page, every link.
- Public business hub, menu management, share-ready onboarding.
- Live: <https://scanconnect-seven.vercel.app>

Fake Review Detection - NLP/ML

Python, scikit-learn, NLTK, TF-IDF, SVM

- MSc dissertation: ML pipeline detecting fake healthcare reviews.
- TF-IDF + lemmatized NLP preprocessing; LR vs NB vs SVM (best F1: 0.83).
- Live: <https://fake-review-detector-tau.vercel.app>

TuneTorrent

Swift, SwiftData, iOS, GitHub Actions

- iOS music, torrent and file manager with SwiftData persistence.
- Live Activities, sideloadable via iloader, CI-built IPA.

EXPERIENCE

AccioJob

Full-Stack Development Apprentice | 2022 - Present

- Training across the full stack - frontend fundamentals, JavaScript, React, backend concepts.
- Built and shipped multiple hands-on projects: quizzes, API-driven apps, auth flows, games.

EDUCATION

University of East London

MSc Computer Science | 2025 - 2026

- Dissertation: AI-based detection of fake reviews in online healthcare platforms (NLP + ML).
- Supervised by Dr. Zainb Dawod.

Nizam College, Hyderabad

Master of Computer Applications (MCA) | 2022 - 2024

- Postgraduate degree in Computer Science - data structures, algorithms, DBMS, SE.
- Certified in Java, JavaScript and HTML/CSS/Bootstrap via Udemy.
